

Hole by Hole Notes - Montgomery CC - 2020 WMGA Mid-Amateur Championship

- 1 5 OB boundary - driving range net poles - down left side. RPA (inside of high grass) down left side after OB. YPA right of and short of PG. Mandatory GUR's - large garden beyond PG and small garden w/rocks well left and short of PG.
- 2 4 OB boundary entire left side is marked by white stakes. It goes to the fence well beyond and left of PG.
- 3 3 OB boundary left and beyond PG marked by white stakes.
- 4 4 OB boundary entire left side marked by white stakes. YPA fronting right side of PG.
- 5 4 YPA and RPA - creek and drainage area - down hill in front of TG. Tall grass way to right of trees up right side towards PG.
- 6 3 Play away
- 7 4 High grass way left of drive zone beyond trees. OB way past the right side dog leg. Rain shelter well left of PG
- 8 4 Play away
- 9 5 YPA at bottom hill from TG. RPA up left side to end of drive zone - drainage area. Then a cut through in high grass out at about 210. High grass beyond cut through is just high grass, **not** an RPA. It runs along left side to about 100 yds from PG.
- 10 4 OB boundary entire right side marked by white stakes. It is pretty far right. High grass on left just beyond hill and grove of pine trees - this is a problem as you will never see the ball go into the grass. RPA well left of PG and another RPA long left, behind, and long right of PG. GUR short and right of PG marked by white/blue striped posts.
- 11 3 RPA - pond - left of and beyond PG. There is another RPA - drainage ditch - way right of PG that can come into play from the left hand TG.
- 12 4 OB boundary up entire right side marked by white stakes, ends at fence post beyond PG. YPA - narrow ditch - in front of TG, then RPA up left side for about 90 yards, then another YPA - narrow ditch running into trees right from the cart path. None of these penalty areas should be in play, but they will be.
- 13 5 High grass left of drive zone. OB - white stakes - runs down the hill from TA for about 100 yds. RPA - creek - runs up the entire right side and up beyond and left of PG. There is a large area of GUR to right of drive zone. Nearest relief from the GUR's will be to the left. The GUR is marked by small white/blue striped posts. Likely to be a ball or two lost in those areas, as the ground is very mushy - **NO CARTS IN THERE!** Small garden and steps left of PG is No Play Zone. **Lots going on!!**
- 14 3 OB stakes to right of TA go nowhere - don't worry about them - they have no status. OB boundary stakes beyond PG and way right of PG. YPA at bottom hill half way to PG.
- 15 4 YPA at bottom of hill from TG. Way, way left, beyond teeing ground for #14 is RPA marked by red line/red stake - it is a continuation of the RPA running up from #13.
- 16 4 High grass way right and way left. Rain shelter far to right of PG.
- 17 4 RPA right, beyond, and left of PG.
- 18 5 YPA in front of TG. RPA just off left side of TG. RPA - drainage area in high grass - runs up right side out about 225 yards to same cut through which is left of #9. Then high grass is just high grass running up towards PG. High grass way left side up to drive zone

72

Notes

Flower beds/stone/mulched areas marked with blue stakes are No Play Zones.
